

# Gemmy Industrial Corp.

## **Laboratory equipment, suction units, autoclave sterilizers, ENT treatment units**

Having accumulated more than 30 years of experience and expertise, Gemmy Industrial Corp. is now a top-notch manufacturer of high-end medical equipment in Taiwan and a member of the Taiwan Medical & Biotech Equipment Industry Association.

With quality in mind, the company has passed certification by key quality management systems including ISO9002 and EN46002 (in 1997), ISO9001 and ISO13485 (by DNV, Norway in 2003), and GMP (in 2001).

Gemmy's strong R&D capability enables it to supply a wide range of high-level medical equipment, including laboratory equipment (differential counters, dry block heaters, thermostatic water baths, universal centrifuges, micro haematocrit centrifuges, orbital shakers, pipette shakers, vortex mixers, lab incubators, laboratory shaker incubators, microscopes), suction units (portable suction units for home care), mobile suction units (for surgery, obstetrics & gynecology), battery operated suction units (for emergency use), autoclave sterilizers (hot-air oven sterilizers, high pressure steam autoclaves, etc.), and ENT (ear, nose and throat) treatment units.

These products have been enjoying strong sales in more than 70 countries around the world, including the U.S., Germany, Japan, the U.K., France, and Italy, and the company is very proud of the good reputation it has earned among its customers worldwide. Gemmy says that its products all feature reasonable prices, good quality, and the best of after-sale services.

Established in 1981, Gemmy was initially an affiliate of the Kenmark Group, a stock-listed firm in Malaysia. It has dedicated itself primarily to the manufacture of high-level medical equipment since 1988.

With the rapid changes in world markets and the trend toward globalization, Gemmy says that it has had plans to reinforce its R&D department so that it can develop more sophisticated new products such as CO2 incubators and state-of-the-art centrifuges.
