

Forever Good Mold Company

Tool holders, tool packs, tool organizers, plastic injection molds

After several decades in the business, Forever Good Mold Company, located in Taiwan's central city of Taichung, is a seasoned producer of tool packs and organizers.

The company claims that unparalleled plastic injection molding and tooling capabilities derived from more than 25 years of experience and know-how give it a distinct advantage over its peers. Forever Good operates well-integrated production lines containing a number of advanced plastic injection molding and related machines, helping to enhance production efficiency and ensure consistent quality.

In addition to professional plastic injection molding services, the company also supplies a variety of tool holders, tool packs, screwdriver packs, plastic processing molds, wrench organizers, tool trays and assortments, socket organizers, anti-theft tool holders, bit holders, plastic screws, tool handles, and plastic injection molded components.

One of the company's high-profile products is a tool hanger-card with a security lock. The hanger-card exposes hand tools so that they draw the attention of consumers to visible views of their product quality and exterior finish while providing protection against theft. This hanger-card meets buyers' needs by providing a value-added packaging solution for hand tools.

Forever Good can handle OEM (original equipment manufacturing) and ODM (original design manufacturing) orders.
