- Ventilating Fans

With such a comprehensive product lineup, Fimex is confident of satisfying customers with thorough solutions for homes and office buildings, and has seen its products accepted by end-users in more than 40 different countries.

Abundant manufacturing experience and advanced know-how are the sources of Fimex's global competitiveness, enabling the firm to supply a wide variety of products with great quality along with rapid product development services at reasonable prices, helping customers better to explore their markets.

A constant pursuit of quality is another factor that makes the company stand tall in its sector. It has passed ISO9001 certification and achieved D&B D-U-N-S registration, and most of its products measure up to UL and CE standards. In addition, it works constantly to develop new products that meet market needs.

With its well-honed manufacturing skills and its assured trustworthy quality, timely technical support services, and competitive prices, Fimex sincerely looks forward to serving new business partners in the near future.
