

Pitac Int'l Machinery Co., Ltd.

Plastic foam extrusion, recycling & pelletizing lines

Pitac Int'l Machinery Co., Ltd., founded in 1998, is a manufacturer and developer of plastic foam extrusion, recycling and pelletizing lines, based in Guishan, Taoyuan County, northern Taiwan.

Having been dedicated to turnkey plant development and installation for years, the maker offers market analysis for new products as well as turnkey plant installation, providing complete and integrated service to enable buyers to set up efficient, profitable production lines to penetrate markets worldwide and maximize rewards.

A reliable plastic turnkey extrusion line developer, Pitac follows the latest trend in the field, offering diversified plastic foam extrusion lines (for PS, PE, PP, PVC etc.), heteromorphic extrusion lines (for PVC, PS, PP, ABS etc.), pipe extrusion lines (for PVC, ABS, PP, PE etc.), plastic sheet extrusion lines (for PVC, HIPS, PP, PET, ABS, PC etc.), and plastic recycling and palletizing equipment.

Plastic foam equipment includes PS/PE/PP/PVC...etc. foam sheeting, pipes, profiles...etc. The company uses chemical or physical foam principals, getting over Butane and CFC which can cause environmental problem, and gives customers newly-designed machines to secure an eco-friendly and low-cost extrusion.

Pitac's buyers are mostly from the Middle East and Americas, but the company invites inquiries from global buyers.
