

Chia-Li Co., Ltd.

Small architectural and furniture screws

Founded in 1989 in Taichung, central Taiwan, Chia-Li Co., Ltd. started as an original equipment manufacturer (OEM) of small screws for architecture and furniture, then moved to the current plant in Chungwa to expand capacity in 1992, having devoted itself to satisfying demand for high product quality and services, also known for solid reputation internationally.

The firm mainly offers furniture screws, drywall screws, high-low-thread screws, machine screws, self-tapping screws, triangular screws, stainless-steel screws, wood screws, screws and washers assembly, brass screws, stainless cap screws, painted screws.

Steadily adapting to changing market demand to develop new products and investing significantly to enhance equipment to meet diverse requirements, the maker has consistently upgraded production and R&D capability, also reputed as a trustworthy supplier and ISO 9001:2008 certified. The maker is noted for delivering superior products on-time at competitive prices, backed by well-rounded after-sale services.

The firm is capable of outputting 650 tons monthly, 90% of which exported, especially to the U.S. and Europe. With efficient management, seasoned workers and sophisticated technology, Chia-Li supplies screws that are well-received globally.
