

Hu Lane Associate Inc.

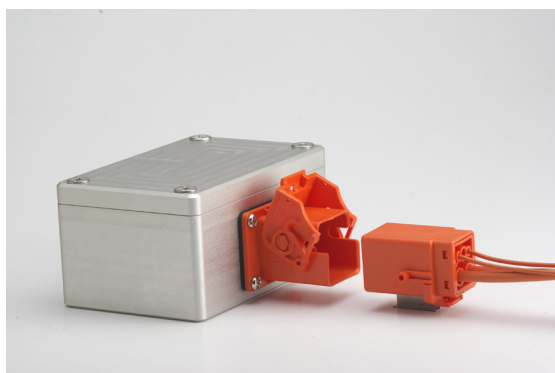

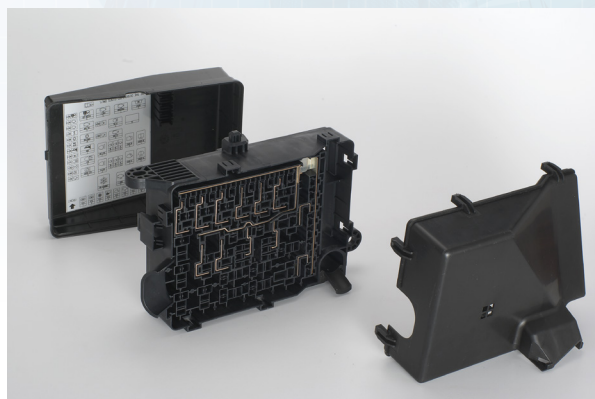

Automotive connectors

Founded in 1977, Hu Lane Associate Inc. has been a seasoned manufacturer of terminal, connectors, wafers, rubber seals and sleeves for automotive and motorcycle applications in Taiwan for some 30 years. The ISO 9001, ISO/TS 16949 and ISO 14001 approved maker is known not only for supplying high quality products and excellent services, but also on-time delivery.

The automotive connector maker used the latest, most advanced techniques and equipment, including CAE (computer-aided engineering) analysis technique, PLM (product lifecycle management) system, and top-end lab equipment meeting global automakers' requirements etc., also steadily developing newer and better techniques and products and launching new items every month.

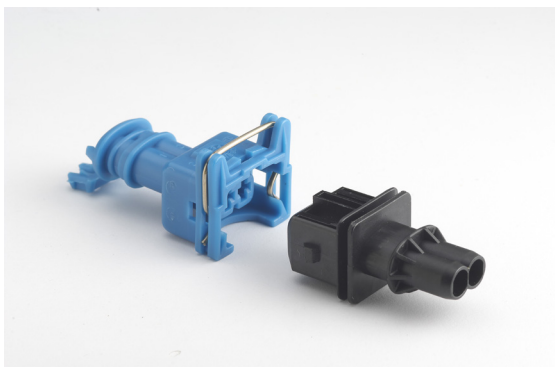

In addition to offering wide-ranging, top-quality automotive connectors, including applications in electronic controller units ECU electronic fuel-injection (EFI) systems, wire to board connectors, liquid petroleum gas (LPG)/ compressed natural gas (CNG) converters, automobile digital entertainment systems, relay boxes etc., Hu Lane closely cooperates with global research institutes to develop industry-leading products as electric vehicle (EV) and Photovoltaics (PV) system connectors to continue its move towards green products.

The top-notch connector maker maintains close technical cooperation with major Chinese automakers, including BYD, and commands a sizable share in the Chinese automotive-connector market. The Taiwanese company also works with international Tier-1s to constantly upgrade technical strength.

Hu Lane has developed thousands of different terminals and plastic connectors for motor vehicle wire harness and electrical components, also claiming to develop products for the medical, electronics, communication etc. industries while looking for additional ways to safely improve lifestyles.

Hu Lane's advanced labs have won world-class certifications, including the Laboratory Certificate: ISO/IEC 17025:2005 version, and SGM(Shanghai GM) GP-10 Laboratory Certificate.
