

Coplus Inc.

Radiator caps, fuel caps, oil filler caps, tail lights, fog lights with daytime running lights (2 in 1), radiator grilles, etc.

Founded in 1964, Coplus Inc. is an ISO/TS 16949- and ISO 9001-certified company specializing in the development and manufacturing of quality auto replacement and performance parts, including radiator caps, fuel caps, oil filler caps, tail lights, fog lights with daytime running lights (2 in 1), grilles, and more.

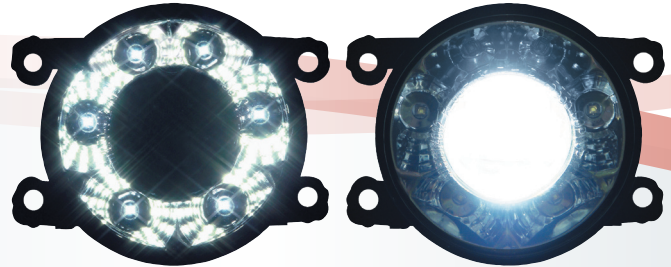

All of the company's products are designed and developed in-house. Coplus' "100% Made-in-Taiwan" products have proven popular in the international market thanks to their high quality and functionality, along with reasonable prices.

The company stresses that constant product development and good quality stability constitute the core competitive advantage of its products. It currently supplies more than 500 radiator caps, fuel caps, and oil caps (including radiator pressure testers) for a wide range of popular American, European, and Japanese passenger-car models. All the caps meet global standards such as SAE, ECE, JIS, USA EPA IM240, FMVSS301, and BAR97.

Performance parts offered by Coplus include mainly tail lights, fog lights with daytime running lights (DRLs), and radiator grilles. All of the performance parts are approved by DOT of the U.S. and E-Mark (E4/E13) of Europe and many items are patented in the U.S., Europe, Taiwan, and China. The company is aggressively expanding its product line to boost the comprehensiveness of its offerings.

With good quality and functionality, as well as unique and innovative designs and functions, Coplus' products are widely popular in North America, Latin America, Europe, Australia, South Africa, Southeast Asia, and Japan. The company also offers OEM/ODM project services to its customers.

The company recently introduces its new BiLiGHT series (Fog Light with DRL 2 in 1) and iGRILLE with LED lights, and has begun promoting its registered "BiLiGHT" and "iGRILLE" trademarks around the world.
