

# Shang Hao Precision Technology Co., Ltd.

OEM industrial parts, valve components, auto parts, elevator buttons, construction hardware, sport parts, fittings

With more than 20 years of experience, Shang Hao Precision Technology Co. is a dedicated supplier of industrial parts mainly on an OEM (original equipment manufacturing) basis.

Underpinned by its motto, "precision, efficiency and enthusiasm," the company enjoys a strong competitiveness that relies mainly on consummate production capability and concentration on quality, along with punctual delivery and reasonable prices.

To achieve consistent quality, Shang Hao continuously brings in advanced production and quality inspection equipment. Its modern factory is now equipped with over 20 sets of CNC dual-shaft lathes, composite lathes, CNC lathes, and other machines, along with a full range of QC devices such as a 2D microprocessor microscope image measuring instrument, optical measuring height gauges, surface roughness testers, micrometers, stereo microscopes, pin gauges, and hardness testers. All of this QC equipment is periodically calibrated and maintained by the book.

Backed by its seasoned manufacturing knowhow and the latest equipment, this veteran maker is capable of applying special materials, like stainless steel, Hastelloy alloy, Monel alloy, titanium, nickel, chrome-molybdenum steel, manganese nickel alloy, acrylic, and SUJ2 high carbon chromium bearing steel, in addition to the more ordinary brass, iron, and aluminum, in its production processes. Its extensive know-how and experience enable the company to provide customers from different sectors with efficient and highly satisfactory OEM services.

Shang Hao's catalogue covers a range of industrial parts, including stainless steel buttons for mobile phones, external components for 3C products, valve components, auto parts, elevator buttons, construction hardware, sports equipment parts, and fitting parts.
