

Ever-Master Machinery Co., Ltd.

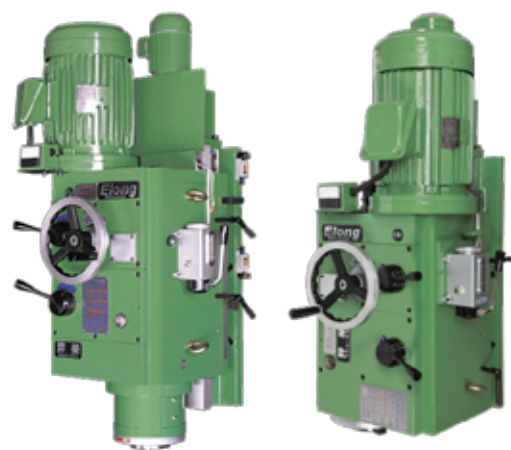

»»» Milling heads, boring & milling heads, universal milling heads, right angle milling heads, milling machine accessories

Ever-Master Machinery Co., founded in 1993 by M.H. Lin, a 40-year industry veteran, is a dedicated manufacturer of various kinds of milling heads.

The company's product catalog includes double column milling heads, right angle milling heads, and milling heads for dedicated machines. Many of the products are protected by new design patents in Taiwan and China.

Ever-Master has entered into long-term partnerships with numerous machine-tool makers, and has built up widespread confidence among customers in its quality. Its strong R&D effort enables the company to introduce new designs fitted to customer demands each year, and its outstanding customer services keeps clients loyal.

Both contract and own-brand products are available; ODM products take up most of production, but "Elong" own-brand products are steadily gaining ground. The company

is vigorously developing markets worldwide; in its biggest market, mainland China, the company has signed up dealers in Shenzhen, Guangzhou, Shanghai, Dongguan, Wuhan, and Jiangsu.

Ever-Master delivers orders around 40 days after they are confirmed, and all products carry a quality warranty. Its firm dedication to customer service, and its solid commitment to quality have given the company a reputation as one of Taiwan's most reliable suppliers of milling heads.
