

Hexdriver Solutions

Brilliant Engineering Co., Ltd.

Power tool accessories, caulking guns,
foam guns, anchor riveter.

Brilliant Engineering Co., Ltd. is a globally competitive Taiwanese manufacturer that specializes in making power tools, hand tools, and related accessories.

The company owns a strong R&D capability driven by its skilled and experienced R&D engineers. With a focus on the continuous improvement of functionality and quality, the innovative company has obtained a number of multinational patents and established a high profile as an OEM (original equipment manufacturing) and ODM (original design manufacturing) supplier.

Brilliant Engineering's product range covers caulking guns, foam guns, scrapers, stainless steel spatulas, claspers, blow-out pumps, steel brushes, and related hardware products. All are popular in the global market, especially with professionals who use them in construction, auto maintenance, metalworking, and woodworking.

Additionally, this technology-driven manufacturer is capable of providing custom-manufacturing and trouble-

shooting services, thanks to its well-seasoned know-how and experience. This has proven effective, in many cases, in helping customers achieve a bigger market share.

With a firm commitment to quality, it also contributes to a solid reputation for Brilliant Engineering. Following years of unremitting quality-control efforts, the company has acquired GS and ISO 9001:2008 certifications, assuring clients of unbeatable quality.

Brilliant Engineering holds steadfastly to its motto, "Innovation, Wonderful Quality & Effective Services," and welcomes partnerships with like-minded companies from all around the world.
