

# Cheng Feng-Chih Hui Co., Ltd.

## WTP (water transfer printing) materials, equipment and technology .....

Since its inception in 1988, Cheng Feng-Chih Hui Co., Ltd. has been devoted to water transfer printing (WTP) as a specialized provider in Taiwan of such service and equipment, materials for automotive parts, household appliances, shoes, furniture, etc.

Backed by decades-long practice and skilled engineers, this company capably handles integrated WTP printing from jiggling and transfer printing to primer coating, washing, film activating, top coating and film spreading on water, to help customers enhance value to products with eye-catching surface finishing.

This printing service provider also efficiently develops new patterns for transfer films, claiming to take advantage of R&D and know-how to develop printing film with new patterns to satisfy demanding customers within only 18 working days. It stocks films with over 3,000 patterns, including wood grain, stone, carbon fiber, camouflage, skin, metal brush, cloth, colorful, geometric and other designs.

The company also supplies WTP-related equipment, including automatic spraying activator machines, lasting temperature transfer printing tanks, automatic washing machines and 3D automatic transfer printing machines, painting booth as well as oven to provide turnkey solutions coupled with thoughtful, timely post-purchase and troubleshooting services. Some of equipment supplied is multinational patented.

Dedication to customer satisfaction and quality, the ISO-9001 certified company has effectively built a global distribution network, branching out to China and Thailand to enjoy high regard among professionals worldwide.
