

Restter Co., Ltd.

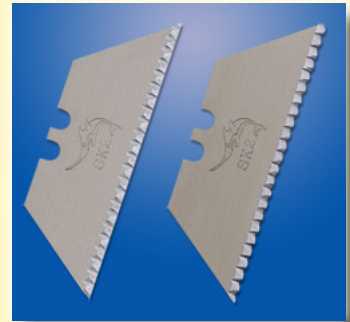

Knife blades, utility knife blades, serrated knife blades etc.

Founded in 1993, Restter Co., Ltd. is a veteran specializing in developing, designing, and manufacturing knife blades, which are internationally reputed for good quality, cost efficiency, durability and toughness.

The firm is very proud of its efforts in assuring the best quality and services. In addition to a wide array of utility knife-blade product lines, the firm, with strong in-house design and development capability, also provides custom-design and -production services to global customers. The company stresses: "We are fully professional in designing to meet your needs, as well as being accountable, sincere and speedy."

Restter claims that after being in business for so many years, the company's core competitive advantages include: on-time delivery, competitive prices, superior quality, and the ability to accept different kinds of OEM/ODM orders.

The maker insists on adopting the highest-grade materials to produce blades, which are strong and durable enough to meet requirements from various industrial applications. It also intensively collects the latest market information and design trends, enabling rapid responses by pushing newer and better products to meet customer demand.

The maker operates a modern and integrated factory in Taiwan, and most of its products are exported to major markets in mainly Europe and Asia.
