

Liang Fei (Sound Ware) Industry Co., Ltd.

Exhaust mufflers, exhaust pipes, cat-back, tail pipes, manifolds etc.

Liang Fei (Sound Ware) Industry Co., Ltd. is an ISO/TS 16949- and ISO 9001-approved factory manufacturing performance-tuning exhaust system and parts in Taiwan. The company mainly supplies mufflers, cat-back system, tail pipes, manifolds, vacuum valves and catalytic converters to global customers with its own "MCK" brand, as well as accepting OEM/ODM orders.

To meet customers' requirements for competitive prices and volumes, Liang Fei built another factory, the Fu Fei converter & Muffler (Taishan) Co., Ltd., in Guangdong Province of China, in 2008.

With 30-year experience in producing exhaust system to customers, Liang Fei is able to supply not only high quality but also innovative products to worldwide markets such as North America, Europe, Australia, Japan, and the Middle East. In addition to patented products like vacuum valves, O2 sensor bungs, and aluminum & stainless assembled tail pipes, the company also develops special titanium treatment technique applying on stainless exhaust products; and this technique makes the products able to resist high temperature and secure long-lasting color.

In addition to supplying self-developed and TS/ISO standard products, Liang Fei also offers customized products to global customers, who only have to provide samples or design blueprints. Depending on 2D & 3D drawings and 3D RP sample developing technique, the company helps customers to save lots of time and tooling costs on developing samples.

Besides technology development, Liang Fei also has a complete stamping, mandrel bending, muffler casing, hydraulic pressing, welding and polishing production line. With its production capabilities, they are able to meet every customer's demand in either performance aftermarket, replacement and OEM market with good quality and valuable price. It will be the "right" choice to your products.
