

Ming Yih Enterprise Co., Ltd.

Stainless valves

Ming Yih Enterprise Co., founded in Changhua City, central Taiwan in 1976, is a prominent supplier of office furniture that, in recent years, has begun the original equipment/design manufacturing (OEM/ODM) of a diverse range of high-end stainless valves. The valves meet high technological requirements and are widely used in various industries including chemicals, food, and biotechnology.

To assure production capability and maintain stable product quality, the firm adopts state-of-the-art equipment, which it fine-tunes to develop customized valves for clients. Ming Yih also strives constantly to improve its quality control capability so as to make sure that every product meets quality standards before it is shipped out.

The company exports most of output to markets in Europe and the U.S. Monthly revenues amount to approximately US\$500,000. In the future, the firm aims to develop its own brand and become an original brand manufacturer (OBM) in order to consolidate its permanent reputation.

Looking ahead, Ming Yih will focus on developing products that meet the special requirements of its customers, along with ultra-clean valves (UCVs) for high-tech industries. With strong R&D and continuously improving production efficiency, the company maintains flexible production and welcomes cooperation with partners in various industries.
