

HKF Cutting Tool Manufacturing Company

Cutting tools, End mills

With more than 15 years of manufacturing expertise, HKF Cutting Tool Manufacturing Company is a seasoned supplier of the best cutting-tool solutions for customers worldwide

High Quality

The company adopts superior raw materials that are 100% imported from Germany and employs the advanced German-made Walter 5-axis CNC grinding machines to produce end mills for automobile, aviation, IT industry, medication, and molds.

The firm insists on offering high-quality products to meet special requirements from customers, and striving to improve customers' processing conditions and reducing production cost.

Keen Service

With "Quality is Everything" as its commitment to global customers, HKF has always done its best to provide customers with high-caliber products at competitive prices, as well as satisfactory after-sale services. In addition, to meet diverse processing specifications, the firm is in a position to supply a variety of end mills, ball-end mills, nose-end mills, and many other customized mills.

Future Innovation

HKF's core competitiveness lies in consistent product quality and innovation. Global customers are welcomed to access the firm's website and APP to download HKF application software programs, so that they can better understand the firm's products and related operation parameters, as well as preferential offerings. HKF welcomes global agents to join its sales distribution network and enjoy mutually-beneficial partnerships.
