

# Hsin Lien Sheng Machinery Co., Ltd.

**Hydraulic press, spotting press, hydraulic deep drawing press, hemming machine, etc.**

Hsin Lien Sheng Machinery Co., Ltd. makes hydraulic press, 180° reversing-type spotting press, hemming machine, high-speed hot/cold forging press, and single/double crank press. The 180° reversing-type spotting press is certified with CE.

Being re-launched in 1998 from Min Chang Machine Co., Ltd., the supplier has a team of engineers, who, on average, have over 20 years of experience in the press-equipment industry.

The company builds all its machines in Taiwan and mostly ships them to Japan, China, Brazil and the United States, with customers including Toyota, Nissan, Yamaha, LG, Fisher & Paykel and MASPION. Using the latest technologies including Auto-CAD system, the company's R&D unit develops effective machines for customers.

The company's success is based on full inspection of every machine before shipping and sourcing various machines for combined shipping to minimize customers' cost.

While promoting own brand, the ISO 9001-certified Hsin Lien Sheng also provides contract manufacturing service.

Diligent service, quality and branding are the essences of the company's strategy.
