

Haupt Industries, Inc.

Machine tools, hand tools, garden tools, air tools, safety equipment, hoses and tubes, builders' hardware.

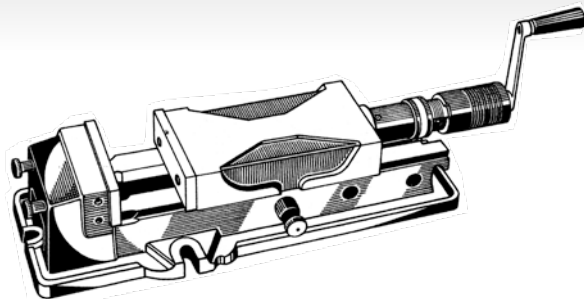

Established in northern Taiwan's Taipei City, Haupt Industries Inc. is a well-reputed export company with more than five decades of experience in exporting Taiwan's high-quality products to Japan, Australia, and Central and South America. It has agents in Japan, Brazil, Ecuador, and Chile.

The firm's product portfolio encompasses seven main categories: machine tools, hand tools, garden tools, air tools, safety equipment, hoses and tubes, and builders' hardware.

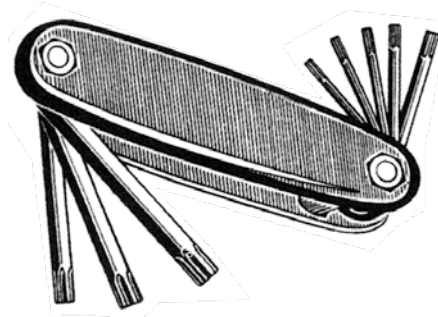

Haupt's Mec-Hydro machine vise has a quick change system that is ideal for heavy industrial applications including milling, drilling, shaping, grinding, routing, and boring. The machine vise's mechanical system is highly recommended for regular applications, with a hydraulic system for heavy-duty cutting.

The firm's 8-PC fold-up Torx wrench set contains T-9, T-10, T-15, T-20, T-25, T-27, T-30, and T-40 size wrenches, all securely locked in a plastic holder 115mm long. All of the wrenches in the set are made of chrome vanadium steel with appropriate heat treatment.

The company not only helps customers consolidate goods for export, but also offers customized production including original equipment manufacturing (OEM) and molding.
