

Stronic Tools Corp.

Computer service kits and maintenance tools, cable strippers, screwdrivers, pliers

Ever since it was established in 1987, Stronic Tools Corp. has been dedicated to developing and manufacturing electronic and computer maintenance tools and kits.

To develop sustainably in the segment, the company insists that all its products should be developed in line with the latest market trends in the electron world so as to ensure good marketability and add value. It currently supplies more than 100 tool models as well as a large number of tool kits in different combinations to accommodate a wide range of applications.

The company also concentrates on quality, and employs experienced QC staffers who implement by-the-book quality control standards in-house. In addition, all the company's tools are demagnetized and undergo full pre-delivery inspections to assure that they not cause any

damage

to hard

drives and magnetic media.

The company's products cover Internet maintenance kits, multi-functional computer service kits, computer tool kits, screwdrivers, testing instruments, cable strippers and crimpers, soldering tools, IC inserters and extractors, pliers, cutters, and anti-static and insulated tools, among others. The products are available with customized blow-molded cases and are orderable on an OEM (original equipment manufacturing) and ODM (original design manufacturing) basis.

Committed to providing exceptional quality, competitive prices, and customer satisfaction,

*Equipping your business to
Thrive in the tech Age
Electrics & Computer tool kits*
