

Pai Weih Enterprise Co., Ltd.

Spares, tuning parts, and accessories for motorcycles, scooters, ATVs etc.

Pai Weih Enterprise Co. is known internationally as a trading firm that supplies high-quality spare and performance-tuning parts and accessories for motorcycles, scooters, all terrain vehicles (ATV), snowmobiles, and other powersports applications.

Established in 1979, Pai Weih has enjoyed steady growth thanks to products that feature the best cost/performance (C/P) value, high quality, good durability, and reasonable prices. To further upgrade its global competitiveness, the company has aggressively invested in R&D in recent years and is further expanding its involvement in customers' outsourcing plans.

Pai Weih's line of engine parts for motorcycles and scooters, including mainly cylinders, pistons, engine cases, and oil/liquid cooling systems, is marketed to major customers in Europe, the U.S., Japan, and Latin America. (The engine parts are available for almost all popular scooter engines with displacements of 50cc to 250cc.) The firm also supplies computer numeric control (CNC)-machined metal parts and accessories, as well as various kinds of lighting products to customers around the world.

The firm says that it maintains close long-term, stable cooperative ties with about 300 suppliers, enabling it to offer total solutions and outstanding services to customers everywhere. These partnerships also help assure that the company's prices are very competitive and delivery is always on time.

Pai Weih is gradually expanding its product line to other internal combustion engine applications, supplying different items for new vehicle types to new customers. With the consequent increased investment in R&D, the company is confident of its sustainable development in the future.
