

Shian Fu Enterprise Co., Ltd.

Bonded seals, V-rings, O-rings, gamma seals, oil seals, U-rings, rubber parts, valve stem seals

Shian Fu Enterprise Co. is a specialized developer and manufacturer of all kinds of industrial components and rubber parts, which are globally marketed under the company's own "SES" brand as well as being supplied to customers on an OEM/ODM basis.

Thanks to its strong R&D and manufacturing capability, Shian Fu is able to supply a wide range of products including bonded seals, V-rings, gamma seals, gaskets, O-rings, and U-ring bearing covers.

With a firm commitment to nothing but the best, the company has gained certification by numerous international quality standards, including ISO 9001, ISO/TS 16949, ISO 14001, and IECQ CQ08000, and all of its products meet ROHS and REACH requirements. These achievements reflect its strong ambition to become a major player in its field.

The firm claims that it holds firmly to the principles of service, quality, innovation, and business continuity, while maintaining optimum capability so as to provide the best services to its clients worldwide.

Shian Fu exports about 85% of its seals to customers worldwide, especially in Europe. It is a major supplier to international heavyweights such as Trelleborg, F+P, TECHNE, ERIKS, Pamargan, COSTEX, Parker, HPS, and R.L.

To meet strong customer demand, the company has engaged in vigorous expansion in recent years. In 2011, for example, it began running Enterprise Resource Planning (ERP) and Electronic Data Interchange (EDI) systems to further upgrade management efficiency. It also set up its second factory in Taiwan, boosting total monthly production capacity to 10 million seals and rubber parts. In 2012, the company further elevated its production capacity by procuring five additional molding machines with capacities from 200 to 500 tons.
