

TAIWAN BRAKE TECHNOLOGY CORP.

Jhan Ving Industrial Co., Ltd.

PTW brake shoes, brake pads, clutch assemblies, drum/disc brake linings

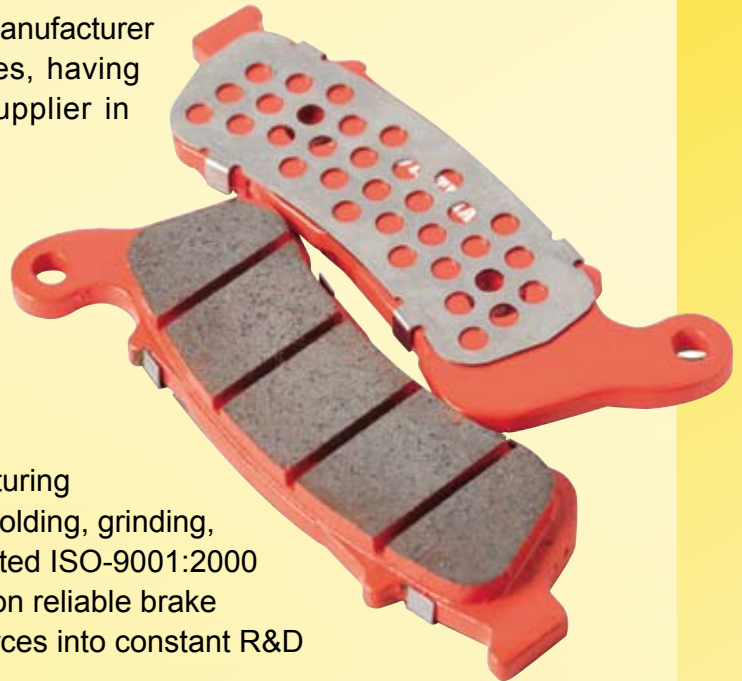

Jhan Ving Industrial Co., Ltd. is a specialized manufacturer of brake shoes, pads, and clutch assemblies, having been recognized as a top-flight PTW parts supplier in Taiwan for over a decade.

Fully understanding the vital role that friction materials play in brake system, Jhan Ving uses only the best of friction materials to assure OE-quality controllability, staying power, and braking force.

The company has a fully standardized manufacturing process that encompasses material sourcing, molding, grinding, welding, and multistage QC, and has been granted ISO-9001:2000 certification. Realizing that safe riding is based on reliable brake systems, the firm pours huge amounts of resources into constant R&D and improvement.

The company has succeeded in developing an innovative, patented centrifugal clutch downshift device for ATVs, with a friction synchronizer on the housing, for smooth shifting from drive to neutral to reverse.

Jhan Ving supplies products to overseas markets under various brands and is steadily expanding export sales to Japan, Europe, and the U.S. With a steadfast focus on the motto "prioritizing quality and striving for perfection," Jhan Ving is confident that it can satisfy all of its customers' needs.
