

# Fullamp International Co., Ltd.

Starter motors, magnetic AC generators for motorcycles, auto/motorcycle and aerospace parts, etc.

Established in 1990, Fullamp International Co., Ltd. is today a major Taiwanese firm that specializes in developing and manufacturing high-quality motorcycle starter motors, magnetic AC generators, and other items such as parts for light aircraft, pneumatic tools, capacitor discharge ignition (CDI) systems, window power motors, and gears for motorcycle starters.

Thanks to a long-term devotion to the constant upgrading of product quality, manufacturing technology, and service quality, Fullamp says, its products are highly popular with customers throughout the world.

A strong market demand is driving the company to steadily expand its capacity and diversify its range of automobile and motorcycle electric parts.

The firm's motto is "Service, Quick Response, Skillful Designers, Reasonable Price, Quality Assurance, and On-time Delivery."
