

Mapsuka Industries Co., Ltd.

Card rack hardware: chassis, backplanes, front panels, and bezels for CompactPCI, PXI, VME, AdvancedMC, and MicroTCA

Mapsuka Industries Co., Ltd., founded in 1980 with over three decades of experience in tooling, metal stamping, and electronics assembly, began in 1997 developing CompactPCI components, front panels and PMC bezels for global customers on OEM basis.

Continually dedicated to electromechanical engineering, the company developed a full line of cPCI enclosures ranging 1U to 9U in 2003. It has also provided standard and custom-made cPCI platform solutions of PICMG specs that meet IEEE 1101.10/11, Eurocard and EMI shielding requirements.

Mapsuka's team of seasoned engineers are known for small-volume, large-variety production, capably meeting demand for telecommunications, military, aeronautical, healthcare, and testing applications.

Helping customers sharpen competitive edge and always looking to build long-term partnerships, Mapsuka have offices in Taiwan and China to supply quality products at competitive prices. Growing steadily, the firm is a CompactPCI maker and supplier for an increasing number of industry leaders globally.

Contact Mapsuka for card rack hardware including extrusions, card guides, tapped strips, and ejector handles; chassis and backplanes for CompactPCI, PXI, VME, AdvancedMC, and MicroMC; front panels and bezels for CompactPCI, PMC, PXI, VME, and AdvancedMC.
