

Tai Dragon Machinery Co., Ltd.

**Auto wrapping machines, top seal auto wrapping machines,
vertical form-fill-seal machines, food packing machines**

Ever since it was established in 1977, Tai Dragon Machinery Co., Ltd. has dedicated itself to the making of high-speed horizontal auto wrapping machines, mainly for food packing.

Tai Dragon currently supplies a variety of wrapping machines including horizontal auto wrapping machines, top seal auto wrapping machines, vertical form fill sealing machines, large-sized form fill sealing machines, auto carton filling and sealing machines, and continuous type sealing machines, as well as napkin wrapping machines and wet wipe folding machines.

After decades of hard work the company has established a solid profile in the global market, offering machines that are much sought-after by customers at home and in foreign countries such as Malaysia, Singapore, Thailand, China, and Australia.

One reason behind the global popularity of Tai Dragon's wrapping machines is the backing of more than 30 years of experience and know-how, an advantage that enables the company to satisfy customers with not just high-performance machines featuring excellent safety, quality, and functionality, but also with professional consultancy on manufacturing and the layout of whole-plant equipment.

This customer-driven company is also accomplished in the supply of whole-plant solutions that meet different requirements and have proven effective, over the decades, in helping clients enhance their competitiveness in the ever-changing market.

Today, Tai Dragon is well-recognized among professional buyers in the field of horizontal wrapping machines all over the world as a reliable and outstanding supplier that always welcomes new partnerships.
