

Trans Electric Co., Ltd.

Wi-Fi AV Receiver WFD-1000 mirrors smartphone' screen to Full-HD TV wirelessly

Founded in 1968, Trans Electric Co., Ltd. is a veteran company specializing in designing, developing and manufacturing a wide range of multimedia accessories, consumer electronics and professional CATV products.

The ISO 9001-, ISO 14001- and IECQ QC 080000-approved company maintains a strong R&D team well versed in designing products for multi-fields, especially innovative radio frequency (RF) and audio/video (A/V) products. With experienced and skillful design ability, the company has been supplying high-performance and good-quality products to customers around the world. Trans is headquartered in Taiwan, and operates a big manufacturing site in Dongguan, Guangdong Province of China.

One of the firm's latest, innovative products is the Wi-Fi AV Receiver WFD-1000, which can copy smartphone's screen to Full-HD TV wirelessly. This receiver wins a prize in the 2013 COMPUTEX TAIPEI d&i awards, organized by iF Forum Design of Germany.

Through the Wi-Fi AV Receiver, users can sit on sofa, tap a smartphone, and seamlessly transmit favorite video and audio to HDMI-enabled big monitors, thus sharing smartphone's entertainment with friends simply and wirelessly.

Users can power the Wi-Fi AV Receiver via TV's USB port without extra power adapter. Besides, the enhanced invisible antenna inside can get Wi-Fi reception from smartphone effectively.

The receiver features stylish high gloss black and metal-imitative frame to create luxurious taste, and its compact size is suitable for high mobility and brings maximum convenience for end users.
