

Hung Chung Co., Ltd.

▶▶▶▶ Power-steering hoses, brake hoses, pipes, customized parts

Founded in 1975, Hung Chung Co., Ltd. is a seasoned maker of power-steering hoses, brake hoses, and staple auto parts with several decades of experience in manufacturing and export.

Initially a trader of performance-enhancing parts and accessories for agricultural vehicles and cars, the company then ventured into production of hoses for steering and brake systems, having evolved into a high profile supplier amid buyers globally.

The company offers power-steering and brake hoses, mostly for Toyota, Mitsubishi, Nissan, Honda, Ford, Volkswagen and Lexus, as well as valve guides, fuel pipes, brake pipes, hydraulic piping systems, pipe fittings for hydraulic systems, clutch pipelines, automotive air conditioning hoses and pipes, engine oil lines, and so forth. Furthermore, the company draws on its know-how and experience to fill custom orders.

Committed to quality and customer satisfaction, the company adheres to by-the-book QC and efficient warehouse management in-house, to offer high quality and rapid delivery to help customers enhance competitiveness. With time-tested reputation backed by well honed production, the company is known amid professional buyers as a reliable partner.
