

Chyau Ban Machinery Co., Ltd.

- *Facial Tissue Machinery - V Fold*
- *Hand Towel Paper Machinery - Z Fold / V Fold / W Fold*
- *Napkin Paper Machinery - 1/4 Fold & 1/8 Fold*
- *Wallet Pocket Tissue Machinery - Multi Fold*

Established in 1987, Chyau Ban Machinery Co., Ltd. is a veteran manufacturer of converting tissue machines located in northern Taiwan's New Taipei City.

The company's machines are developed in line with the market trends toward safety and performance; all bear CE certification, and all feature exceptional quality. To better compete globally, the firm has been working hard to improve its converting machines to enhance tissue product capacity as well as to produce tidy interfold and clean-cut tissue products.

Another factor in Chyau Ban's success in the global market is its use of the "All-in-One" system, with a design that incorporates cutting-edge technology and packages several different systems in a single machine to enhance performance and efficiency. Many of the supplier's converting tissue machines, such as those for making V Fold Facial Tissue, V Fold Hand Towel Paper, Z Fold Hand Towel Paper, W Fold Hand Towel Paper, 1/4 and 1/8 Fold Napkin Paper, Multi Fold Pocket Tissue Paper, Toilet Paper, Kitchen Towel Rolls, and Maxi Rolls, are famous around the world for having this advanced design.

Among Chyau Ban's hottest sellers are its Hand Towel Machines (including V Fold, Z Fold and W Fold models) with lamination and embossing system. These machines, which are highly popular with paper mills in Europe, turn out 2-ply hand towel paper in one sheet, using a lamination and embossing roll system for better water absorption capability.
