

Sotek Technology Co., Ltd.

Precision die-cast, investment cast, sand cast, CNC machined, stamped, forged, metal and plastic injection-molded parts

Spun off from Sotek (established in 1989) in 2004 as a sole proprietorship, Sotek Technology Co., Ltd. manufactures and exports precision die-cast, investment cast, sand cast, lost-wax cast, CNC machined, stamped, forged, sintered, powder metallurgical, and metal and plastic injection-molded parts.

With CNC machining, precision casting, and aluminum die-casting plants in Taiwan and China that are either TS16969 or ISO 9001:2000 certified, the company offers quality, competitively priced products that are delivered with dedicated services. Annual revenues now amount to US\$7 million.

Sotek offers a broad range of products for a variety of applications: valves, gear joints, bushes, brackets, heat sinks, lamp housings, adapters, clamps, cylinders, fan kits, card readers, NCT products, and many more. Up to 99% of output is exported, mainly to North America, Europe, and China.

For more than a decade the company has been an OEM and ODM supplier to major American and European companies, including GAST, the IDEX group (a global fluids leader), LINDE-AGA (a special-gas solution provider), GTECH, and Meyer Sound (a world leader in designing and making stereo equipment and loudspeakers).

Sotek welcomes shop drawings for custom orders and looks forward to building long-term partnerships with buyers from all industries all over the world.
