

# Yeun Chang Hardware Tool Co., Ltd.

Steel nails, brass nails, steel concrete nails, type nails (L-type, U-type, T-type), drive pins

Having dedicated itself to making fasteners since 1981, Yuen Chang Hardware Tool Co., Ltd. is widely recognized by customers all over the world for the quality products it sells under its own "Thumb" brand.

To enhance production efficiency and capacity, the company has automated its in-house production facilities and installed integrated

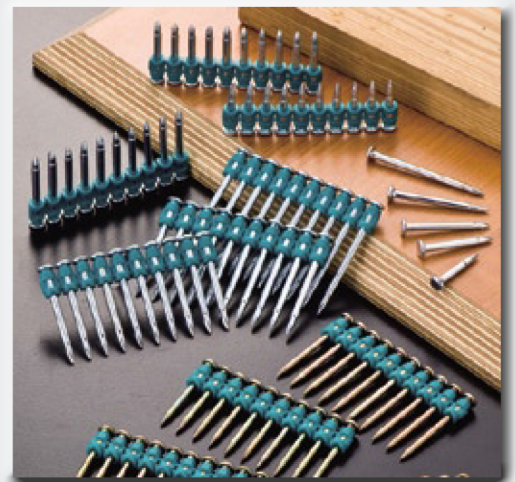

lines to handle all processes from

fabrication and heat treatment to packaging. It now has a monthly output of over 350 tons of assorted nails and other fasteners.

Yeun Chang supplies a wide range of nails including concrete, angular spiral, spiral, and type nails (L-type, U-type, T-type); round steel nails; drive pins for powder and gas-actuated tools; and wire/cable clips and nail holding kits. Its hottest-sellers include the spiral steel nail series, which are all made of high-quality carbon steel and well galvanized. This series is popular with customers because of its enhanced structural strength and adhesion.

With a consistent commitment to quality, the company has been certified to ISO 9001 standards, affirming its status as a world-caliber supplier. Backed by an experienced R&D team and cutting-edge know-how in fastener fabrication, Yeun Chang can capably and efficiently fill custom orders.

ISO 9001
