**EXACT MACHINERY CO.,LTD.**

**CNC Tilting Table, Rotary Table, Rotary Table with APC,  
Index Table.**

The EXACT Machinery Co., Ltd. has more than 20 years of experience in manufacturing such key machinery components and accessories as high-precision index tables. The company's 3,800-square-meter factory has an annual output reaching over 3,000 sets of the products.

The company adopts a strict inspection and testing system to ensure its production of high-end products. In addition to the continuous elevation of quality, the firm also pays much attention to the precision and durability of its products.

At present, EXACT specializes in the development and production of high-precision CNC (computerized numerically controlled) tilting tables, rotary tables, indexing tables, auto pallet changers (APCs), and various kinds of dividing systems for the machine-tool, metalworking, high-tech, and automotive industries, along with sanitary equipment, modern bathroom facilities, and home appliances.

The company's TRT-series of CNC tilting rotary tables features a two-axis motor driver with dual lead worm transmission, 0.001 continuous increment operation, a hydraulic clamping system (PHC booster available), and a wider tilting angle for improved operation. Its NCT-series of CNC rotary tables works in both vertical and horizontal positions.
