

Hon Jan Cutting Tools Co., Ltd.

External/internal turning tools and thread cutters; grooving, face and shoulder milling cutters; boring and milling cutters, high-speed drills, boring tools, CNC cartridges

Established in 1989, Hon Jan Cutting Tools Co., Ltd. designs and manufactures replacement cutters under its own "SHAN GIN" brand for all kinds of machine tools, offering in-house-made products and filling custom orders.

The company supplies a broad range of external/internal turning tools and thread cutters, grooving cutters, cut-off tool holders and blades, face and shoulder milling cutters, boring & milling cutters, high-speed drills, boring tools, tool-holder cartridges, and accessories, which are popular in Europe, the Americas, and Asia.

Backed by cutting-edge know-how and a team of dedicated engineers, Hon Jan is capable of providing machining application support and consultation, also willing to share with customers its ample, invaluable industry experience that have won praise and support.

Hon Jan does its utmost to provide top-quality products and customer-satisfying services. Insisting on manufacturing totally in Taiwan and using only Japanese steels, the firm has built long-term OEM partnerships with globally renowned brands.

Hon Jan offers products with complete specifications in-stock to meet customers' diversified needs, inviting inquiries about the latest products and efficient production coupled with short lead-time.
