

GISON Machinery Co., Ltd.

Taiwan manufacturer of air tools, pneumatic tools, air wrench, air grinder, air sander, air polisher, air hammer, air drill, air screwdriver, air hydraulic riveter... etc.

GISON Machinery Co., Ltd., founded 1945, has been engaged in the development and production of high-quality industrial air tools since 1973. The ISO-9001 certified company's products, all made in Taiwan, have been approved by the CE mark, and its GP brand is synonymous with high-end air tools in Taiwan.

With world-class R&D capability, GISON supplies hundreds of product models in a very wide array of product categories including: air impact wrench and ratchet wrench, air grinder, air sander, air polisher, air wet abrasive tool, air die grinder, air micro grinder, air screwdriver, air drill, air hydraulic riveter, air hammer, air needle scaler, air cutting tool, air stapler, air nailer, air blow gun and other accessories. The maker adds two to three new models to the GP product family per year.

GISON claims that it is also the largest supplier of pneumatic grinders, sanders, polishers for professional users in Taiwan. The GP-branded products have been quite popular with overseas customers, especially in Europe. Besides its own-brand sales, GISON supplies about half of its output on an ODM basis. The maker says that the GP brand image has helped his company win ODM business from an increasing number of big international air-tool brands.

"Constant product development, improvement, and innovation are the core elements of the GP brand," the firm stresses. GISON has one of the strongest R&D teams in the local air-tool line, and its R&D strength has translated into a number of industry-first and top-class products, such as the world's only automatic sink oval hole cutter / router for wash-basin, wet air stone router and a high-level air random orbital sander with five global patents etc.
