

# Ji Justness Industrial Co., Ltd.

*Ear protectors, face shields, respirators, safety goggles  
& glasses, helmets*

**J**i Justness Industrial Co., Ltd. was founded in 2004 and is today a booming supplier of personal protective equipment that is well recognized for high quality and exceptional reliability.

The company's product line covers a variety of personal protective equipment, including ear protectors, masks, face shields, respirators, safety goggles and glasses, safety helmets, welding helmets, and so forth, all of which are manufactured in line with both CE and ANSI safety standards and so are popular with professionals throughout the world.

Asides from religious adherence to international safety standards, the success of Ji Justness's products is due also to its technological expertise and extensive know-how. Backed by these advantages, the company is able to satisfy demanding customers with personal protective products that meet dimensional, functional, and exterior requirements while measuring up to safety standards and regulatory guidelines.

Furthermore, Ji Justness can handle the full cycle of production from prototyping to tooling, molding, stamping, and plastic injection molding to ensure quality consistency and production flexibility. Sound logistics management assures timely service and on-time, speedy delivery.

With its conscientious dedication to the quality, consummate production capability, and customer satisfaction, Ji Justness has built a strong profile as a trustworthy supplier.
