

Lighterking Enterprise Co., Ltd.

Car/motorcycle cigarette lighters, multi-socket plugs, extension wiring, power sockets, car flashlights, USB adaptors, etc.

Established in 1980, Lighterking Enterprise Co., Ltd. is an ISO 9001:2008-certified manufacturer of a wide range of auto accessories. With abundant experience and know-how accumulated for more than 30 years, the company claims a position as a leading original equipment (OE) supplier of quality parts to customers around the world.

Thanks to its advanced automated production lines, Lighterking says that it is fully confident in its product quality and durability. It is also proud of its strong in-house R&D team, consisting of a group of talented molding designers and electronic engineers who work constantly to upgrade product quality and functionality using the most advanced software tools including AutoCAD, SolidWorks, and Pro/E.

Lighterking's major product categories include car/motorcycle cigarette lighters, plugs, multi-socket plugs, extension wiring, power sockets used in telecom, car flashlights, and USB adaptors, among others. All of the products, the firm claims, are CE- and FCC-approved, and many are patented worldwide. One striking example of the firm's patented products is its adaptor and USB charger, featuring efficient power supply, safety power cut-off protection, and independent switching.

The manufacturer exports its products to customers around the world, especially to international automakers in North America, Europe, and other areas.

With its leader-of-the-pack capability, Lighterking welcomes custom development and manufacturing projects, and is confident of its ability to provide efficient production and delivery services that satisfy all the needs of its customers.

Lighterking stresses that it guarantees to satisfy customers with superior-quality products, dedicated customization, top-grade service, and punctual delivery. Advice from customers, the firm adds, is always highly anticipated and appreciated.
