

TOP-RANK Industrial Co., Ltd.

Auto repair tools, hand tools, tire lever wrenches, socket wrench sets, 4-way rim wrenches, LED L-type socket wrenches, 4-way lug wrenches, etc.

TOP-RANK Industrial Co., Ltd. was founded in 1979 and has grown into a veteran specialist in developing and manufacturing high-quality automotive tools and hand tools. Thanks to its strong innovation capability, many of the firm's products have been patented globally.

To meet the diverse demands of the global market and further enhance its competitiveness, TOP-RANK set up a Chinese subsidiary in 1999, the TOP-RANK Industry (Jiashan) Co., in Zhejiang Province. The subsidiary uses the latest production know-how and has installed the latest equipment, including precision forging machines.

TOP-RANK focuses on two major businesses: finished-product production, and processing services. The firm claims that all its production processes are compatible with stringent safety standards. In addition to OEM/ODM manufacturing, it also offers its customers product development and other services.

The firm supplies a wide range of products, including auto repair tools, hand tools, tire lever wrenches, socket wrench sets, 4-way rim wrenches, LED L-type socket wrenches, 4-way lug wrenches, swivel lug wrenches, truck wrenches, reinforced wrenches, and many others.

Facing fierce global competition, TOP-RANK has set up a foreign trade division in 2009 to develop more sales channels worldwide. It is continuing to tap into an increasing number of emerging markets as well as to develop patented products that meet consumer needs and help build a broader product line.

TOP-RANK sells its products to many countries, such as U.S.A., Mexico, Germany, Italy, Japan, Korea, Vietnam, India, Indonesia....etc.
