

# ***Kin Way Industrial Co., Ltd.***

*Plastic hoses, garden water hoses,  
expandable pocket hoses, lawn sprinklers*

Founded in 2010 in central Taiwan's Changhua City, Kin Way Industrial Co., Ltd. is a specialized manufacturer of plastic hoses with ample experience in sprinkler imports and exports. The company's line of irrigation tools encompasses plastic hoses, lawn sprinklers, expandable pocket hoses, and garden hoses, among other products.

Kin Way offers expandable pocket hoses in 25ft, 50ft, and 75ft lengths and various colors for industrial, garden, nursery, commercial, and golf court applications. The hoses are impact-proof, kink-resistant, durable, flexible, ozone- and wear-resistant, and easy to use. They are also tolerant of cold and heat, and are able to work in temperatures of -5~60°C.

Lightweight and easy to store, the expandable pocket hose is especially ideal for garden irrigation. The length of the hose expands three times when water is in it, and it is automatically retractable. It is cadmium- and silicone-free, and is made to meet EU environmental protection standards.

Committed to integrity and excellence, Kin Way strictly controls quality and constantly develops new products. Known for its attention to detail, the company provides quality products designed to create mutual profits with its clients. It offers OEM services and accepts small-volume orders.
