

Sheen Yuan Auto Co., Ltd.

Car care products including multifunctional carbon fouling cleaners, MoS2 motor oil additives, choke and carb cleaners, rubber seal activating agents, grease

Founded in 1980 in central Taiwan, Sheen Yuan Auto Co., Ltd. started out as a car repair company; in 1992, however, it set up sales, export, and R&D departments and diversified into the development of car care products backed by its more than 30 years of experience in car repair and maintenance.

Sheen Yuan's catalog encompasses multifunctional carbon fouling cleaners, MoS2 motor oil additives, choke and carb cleaners, rubber seal activating agents, fuel system cleaners and water removers, grease, engine flushes, nano organic-molybdenum additives, rust removing lubricants, 3-way catalytic converters, anti-wear additives, radiator additives, automatic transmission fluid, nano glass coating, manifold cleaners, and diesel oil cleaners, among other products.

One of Sheen Yuan's mainstream products is a multifunctional carbon fouling cleaner, which removes carbon deposits from automotive combustion chambers and forms a protective layer that suppresses and decomposes carbon. The water-

based cleaner effectively solves vibration, knocking, poor starting, and weak acceleration problems while restoring original car power and fuel consumption rate. The Euro VI-approved cleaner is suitable for all engines, especially those with turbochargers.

Marketing products under its own "Spirit" brand, Sheen Yuan has built up a sound reputation for reliability and customer orientation.

It is always eager to share and exchange its ample experience in car repair with its customers.
