

Sunrise Products Co., Ltd.

Showerheads, valves, shower equipment, flow-volume controls, shower arms, liquid soap dispensers, and bathroom accessories

Founded in 1979 in Taiwan's central country of Changhua, Sunrise Products Co., Ltd. specializes in production of showerheads, related components and bathroom fittings, which are mainly made of copper.

Emphasizing R&D and innovation, Sunrise has built wide-ranging product line to include showerheads with adjustable jet, various spray patterns, in porcelain, water-saver design and handheld models in various sizes, as well as faucets, valves, 3 way valves, shower diverter valves, flow-volume controls, shower arms, liquid soap dispensers, tube flanges, vacuum breakers, brass tubes, and showerhead accessories.

The firm also owes its success to dedication to high production efficiency and product precision, achieved with a full line of advanced CNC and special-purpose machines. Uncompromising product quality and personalized service also make the company renowned as one of the most trustworthy suppliers of its kind in Taiwan.

Believing in "you get what you pay for," the firm does not slash prices to land orders, nor cut corners to compromise its solid reputation. Besides steadily improving functionality and quality, Sunrise has spared no efforts streamlining production process and developing new products to better meet customers' demands and always stay a step ahead in the market.
