

# Holo Pack Technology Co., Ltd.

Ball transfer units, castors, turntables, ball plungers, needle rollers, load skates; steel, plastic and glass balls; other ball-related products

Founded in 1977, Holo Pack Technology Co., Ltd. is a world-leading supplier of quality automation parts, including ball transfer units, turntables, ball plungers, needle rollers, load skates, as well as steel, plastic and glass balls. Headquartered in Taoyuan County, northern Taiwan with a trading firm in Shanghai, China, the firm has ample inventory to meet global demand.

With a dedicated team handling R&D, production, and marketing, the company leads the industry with cutting-edge know-how, complete line of products, and top quality. To develop its sales and promote own brands, the company frequently participates in major international trade shows, advertises globally, timely adjusts prices, and provides free consultation.

Holo Pack's products are used primarily for solar, optoelectronic semiconductor, aeronautical, automotive, cargo, food, and glass conveyors. Prioritizing eco-friendliness, safety and practicality, the maker steadily designs and turns out diversified innovative products. With large showrooms to share product information, it has major clients in Taiwan and abroad.

Always striving to improve, Holo Pack regularly introduces new products. To offer customers more options, the company also serves as a distributor of ball transfer units from Alwayse Engineering of the U.K., from whom its personnel have received specialized training.
