

Ho Han Industrial Co. Ltd.

Refrigerating equipment including computerized cereal coolers/dehumidifiers, open-type instant chillers, ultra-cold coolers, industrial air-cooled chillers

Ho Han Industrial Co., Ltd. was founded in 1992 and ever since has pursued excellence in refrigeration technology for cool/dehumidified storage, which maintains long-term cereal freshness and slows cereal respiration. To eliminate condensation problems related to barrel storage, the firm adjusts dehumidifier use to assure consistent storage quality with a high handling capacity at low cost.

Through constant investment in innovation and R&D, Ho Han has developed a wide range of industrial air- and water-cooled chillers and air-cooled chambers for special-purpose machines. The firm's dedicated work force turns out high performance products that create profitability for its customers.

Ho Han's product line encompasses computerized cereal coolers/dehumidifiers, open-type instant chillers, ultra-cold coolers, agricultural computerized cereal coolers/dehumidifiers, industrial open-type rapid chillers, industrial air-cooled chillers, industrial water-cooled chillers, water-cooled chillers, -80°C ultra-cold refrigerators (for pharmaceuticals), plastic lighter coolers, computerized tea-leaf coolers/dehumidifiers, agricultural cereal coolers, and newly-developed vacuum freeze dryers.

Having built up a solid reputation, the company markets under its own "Tian Ma" brand and is known as a reliable supplier of industrial refrigeration machines. Committed to quality, it accepts OEM and ODM orders and offers comprehensive after-sales and customization services as well.
