

Shih Hsiang

Enterprise Co., Ltd.

Rubber and silicone rubber parts for cars, motorcycles, O-rings, washers, seals etc.

Shih Hsiang Enterprise Co., Ltd. is one of the most experienced developers and makers of quality rubber and silicone rubber parts with more than 30 years of experience. Backed by strong R&D team with accumulated experience and know-how in the rubber industry, the manufacturer consistently researches and develops various innovative products using different materials and cutting-edge original designs to serve an ever-changing market. In addition to standard sizes, the supplier also offers rubber parts in customized specifications and designs for wide-ranging applications.

Thanks to leader-of-the-pack development ability, Shih Hsiang offers O-rings, washers, rubber gears, auto lamp wire grommets, metal-bonded rubber parts, valve stem seals, rubber hand tool parts, rubber connectors, which are used in hand tools, bathroom fittings and accessories, silicone rubber for food making, medical instruments, automotive, motorcycle, and industrial production.

To be a leading player of its kind, over the past years the company has also steadily upgraded production facilities and techniques, to satisfy clients with the most efficient possible production along with the best quality

and lowest costs. Driven by strong commitment to mutual benefit with customers, this maker is also versed at OEM and ODM.

Shih Hsiang operates a factory in Taichung of central Taiwan with about 20 employees. The company's high-quality, 100% made-in-Taiwan products are exported to and widely welcome by customer in major markets such as China, Southeast Asia, North America, Central and South America, Europe, Africa and Oceania.
