

YEAN HORNG MACHINERY CO., LTD. ZHONG KAI MOLD INDUSTRIAL CO., LTD.

Plastic/rubber extruders, weighing system, masterbatch compounding

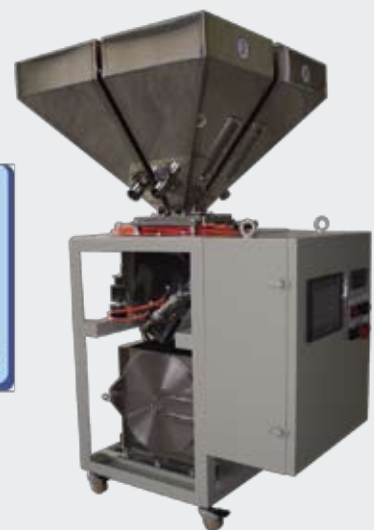

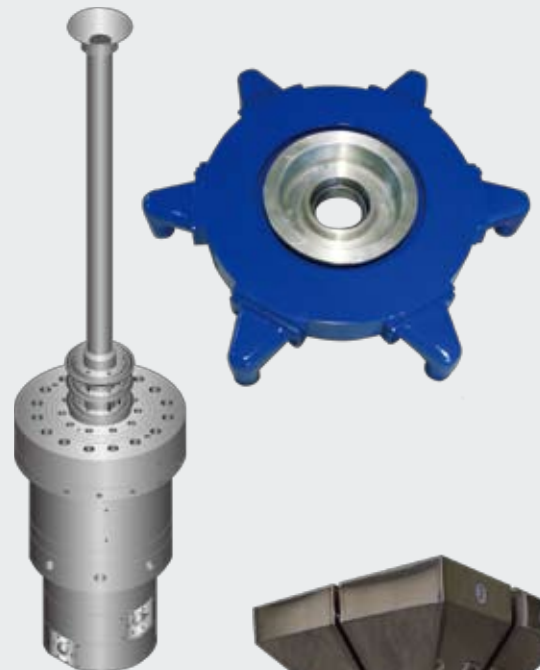

Established in Tainan, southern Taiwan, Yean Horng Machinery Co., Ltd. has more than two decades of experience in manufacturing plastic extruders and related equipment, including PP stationery sheet extrusion machines, PP/PS sheet vacuum forming machines, PP film making machines, extrusion lamination machines and weighing system.

Yean Horng supplies PP stationery sheet extrusion machines, PP/PS sheet vacuum forming machines, PEVA embossing machines, extrusion lamination machines, tandem extrusion lamination machines, various kinds of extruders, shredders, vertical cooling blenders, high-speed mixers, loss-in-weight system, raw material conveying & weighing system, recycled plastics pelletizing machines and masterbatch compounding.

The new "loss-in-weight system" developed by the firm's professional R&D team features small size but large production capacity. Besides, the firm also supplies gravimetric formula weighing unit and other related systems, which are customized to improve economic benefit for customers.

To boost market share, the firm's newly-established Zhong Kai Mold Industrial Co., Ltd. focuses on producing blown film die (3-layer, 5-layer, 7-layer, 9-layer) and air rings with exclusive design backed by continuous efforts in research and development.

Based on the corporate spirit of offering "Best Quality, Foremost Technology", Yean Horng's well-trained team has managed to provide excellent services and the latest machines to meet market demand and create win-win status with global customers.
