

Chien Chie Rubber Technology Co., Ltd.

O-rings, rubber gaskets, bushings, boots, vacuum cups, packing, rubber seals and custom rubber seals etc.

Established in 1984, Chien Chie Rubber Technology Co., Ltd. is a veteran company specialized in designing, developing and manufacturing high-quality rubber products for industrial applications, including automotive parts, bathroom accessories, gardening parts, sporting equipment, electrical components, customized production, and others.

With strong design and development capability, we offer a wide-range of product types, mainly o-ring, oil-seal, vacuum cups, gaskets, boots, bushing, formed hose, rubber washer, packing and custom rubber seals.

Our company is insistent on adopting American Society for Testing and Materials (ASTM) standards and using the best materials for making quality products, including NBR, HNBR, EPDM, CR, neoprene, SBR, FPM, NR, silicone, Viton and IIR. In addition to standard products, the company also accepts orders on the OEM/ODM (original equipment/design manufacturer) basis, as well as special requirements for oil-, acid-, alkaline-, high/low temperature-, isolation, water-, fire-, dust-, slip-proof applications.

Chien Chie not only offers brand-new injection molding and vacuum type compression molding machines for rubber products, but also provides a fully developed 2D/3D designing for custom-made molding.

Chien Chie aims to meet several major goals, including steady product and production-technique R&D, prompt delivery, upgrading quality, and a full range of services to help achieve sustainable operation.
