

# Kenswell Tube Forming Inc.

Coil hoses, flat hoses, hose reels, soaker hoses, tubes for drinking water, cable inner tubes, coated wires

**K**enswell Tube Forming Inc. is a veteran maker of hoses, cables and tubes for various purposes, with more than 20 years of manufacturing expertise.

The firm's product category includes coil hoses, flat hoses, hose reels, soaker hoses, tubes for drinking water, cable inner tubes, coated wires, reflective coils, protective coils, hydraulic hoses and interior lubricated tubes for control cables, etc., which are widely used by manufacturers of gardening products, automotive items, motorbikes, bathroom and plumbing fittings, air and hydraulic compressors, fitness equipment, and many others.

Consummate production capability enables this time-tested maker to have developed sustainably in the global market, mainly driven by a slate of advanced production facilities, such as CNC lathes, employed at its plant, where production management and floor layout are certified to ISO 9001 standards.

Ample knowledge about various extrusion techniques and material properties also lays the basis for Kenswell to compete well globally. For example, the company capably develops and churns out cables coated with various plastics, including PVC and nylon, for exercise equipment, as well as control cables and tubes with internal thread with relatively fewer production processes to help customers cut cost and enhance profitability.

The firm's DIY reflective coils are also a notable product that is widely applied in bicycles, all made of high-quality materials and with cutting-edge production skills to feature easy installation, stylish exterior, and high visibility for safer cycling.

Bolstered by the abovementioned core competitive advantages, Kenswell is a renowned, reliable OEM (original equipment manufacturer) and ODM (original design manufacturer).
