

# Lian Chang Casting Inc.

Die casting aluminum, brass, zinc alloy and molds

With more than three decades of expertise and practice, Lian Chang Casting Inc. is a Taiwanese veteran manufacturer of die castings of aluminum, brass, and zinc alloy, as well as molds, snap hook ends and wall plates.

This maker turns out 40-50 tonnes of aluminum die castings, 30-45 tonnes of zinc alloy die castings, and 35-50 tonnes of brass die castings a month, with 60% of annual output going to North America, and 25% to Europe. Application of its products covers locks, lighting fixtures, hardware products, electronic devices, vehicles, valves, sprinkler frames, water meter frames, etc.

Additionally, the company also capably develops and supplies molds, and provides precision machining, OEM (original equipment manufacturing) and ODM (original design manufacturing) services for any kind of industrial part within the shortest possible lead time, hence enjoying solid reputation among buyers all over the world.

Integrated production is the key to Lian Chang's current success in the line. The company has a comprehensive line of advanced production facilities at its ISO-9001:2008-certified factory, and so can handle not just die casting and mold developing and making, but also electrical discharge machining and surface finishing. This enables the firm to ensure customers qualitative consistence, high production efficiency and short lead time.

CNC machining services that customers can outsource to Lian Chang include drilling, tapping, broaching, reaming, sanding, polishing, deburring, vibrating, thermal debarring, outside chemical finishing, painting and so forth.

To make sure quality meets customers' expectation, Lian Chang carries out complete quality control system in line with international standards, and insists that all processes are finished in Taiwan. (SC))
