

Rapid Chemical Co., Ltd.

Epoxy resins, adhesives, dry film lubricants, snowboard resins, release agents, model-casting resins

Set up in 1998, Rapid Chemical Co., Ltd. is an importer and exporter of industrial chemicals, including epoxy resins, adhesives, model-casting resins, dry film lubricants, release agents, snowboard resins, and many other associated products for assembly, adhesion, lamination forming, and lubrication.

In addition to imports, the company also exports products procured in Taiwan, with an efficient, reliable team procuring according to customer specifications on applications, colors, hardness, processing properties, solidification time, adhesion strength, and production costs, aiming for maximum mutual profitability.

With fierce competition among famous foreign brands and Taiwanese manufacturers, Rapid Chemical knows that only via solid reputation and trustworthy know-how can players survive. To accomplish such goal and keep abreast of major brands globally to create higher profit with higher pricing, the company does its utmost to build one of the few renowned brands in Taiwan.

Rapid Chemical has introduced a series of own-branded products using in-house formulas, including Rapid-Chem dry film lubricants for electronic products and LIONBOND lamination resins for snowboards, sleighs and surfboards. Subcontractors of many world-famous brands also choose to use the company's products. Buyers are welcome to contact the firm for more information.
