

Wei Meng Industrial Co., Ltd.

*Raschel knitting machines, shading net making machines,
and whole-plant equipment for bag and net production*

Wei Meng Industrial Co., Ltd. is an experienced supplier that has been dedicated to developing and manufacturing Raschel knitting machines and whole-plant equipment for making bags and nets ever since its establishment in 1978.

Backed by a team of skilled R&D engineers, this company supplies a variety of knitting machines and related equipment such as shading net machines, film slitting extension machines, Raschel knitting machines, onion bag machines, fishing net machines, packing bag machines, monofilament machines, flat yarn machines, safety net machines, wrapping machines, film blowing machines, knotless fishing net machines, double needle bar Raschel machines, and high-speed Raschel knitting machines.

Wei Meng's machines are all manufactured under stringent quality control measures in its modern, ISO-certified factory; they carry the CE mark, and are conscientiously checked and tweaked before delivery so that they fully satisfy their buyers. Over 80% of the products are exported and are much sought-after by professional end-users worldwide because of their undoubted quality, innovative functions, and excellent performance.

Wide-ranging application is one of the big attractions of Wei Meng's knitting machines. Its Raschel series knitting machine, for instance, can be used to produce net bags and shade nets of PE flat yarn; nylon net fabric curtains, garment, shoes, and hats for textile and industrial use; and mosquito nets, safety nets, bird

nets, and protection nets made of of PE round yarn, in different sizes and shapes for construction and agricultural purposes.

In addition to consummate manufacturing capability and know-how, Wei Meng is also noted for offering timely after-sale services and responding to customers' enquiries and production questions within the shortest possible time.
