

# Jiuh Huey Enterprise Co., Ltd.

Plastic wheel covers, accessories

After more than 34 years in the business of manufacturing plastic wheel covers and accessories, Jiuh Huey Enterprise Co., Ltd. has grown into a multi-million US dollar business and a major name in Asia.

To offer customers more choices of peripherals for automotive applications, the company regularly develops new and practical products.

The manufacturer has over 50 employees who use the latest production and inspection equipment to turn out a broad range of plastic wheel covers which come in various specifications, color combinations, and styles, and are highly competitive in quality, price, lead time, and design.

The company currently supplies standard, special, Q-lock, tuning, racing and carbon, football, spinning, spoke, and deep dish (15," 16") collections, and also welcomes shop drawings and OEM orders. It exports all of its output to North and South America, Europe, Japan, Australia, Africa and the Middle East, and has plans for the further development of markets around the world.

To maintain or even improve on its average annual growth rate of 15%, Jiuh Huey does its utmost to achieve full customer satisfaction. In addition to the strict controls it imposes on quality and time, it also claims the ability to turn out the best products in its field--products that are multi-nationally patented for innovative designs such as adjustable retention rings and snap nested style wheel cover.

Please contact Jiuh Huey for more information or for the joint development of new products.
