

Day Tay Plastic Industry Ltd.

Rigid and flexible extruded plastic tubes, strips, air hoses, soaker hoses, 3D printer filaments

Since founded in 1996, Day Tay Plastic Industry Ltd. has specialized in plastic extrusion to supply varieties of tubing and plastic components and accessories for different purposes.

The company offers braided tubes, air hoses, soaker hoses, fishery tubing, filter tubes for water filters, hold-down strips for printing machines, bag trim tubes, garment tubes, garden hoses, sprinkler conduits, handbag piping, irregularly shaped rigid and flexible tubes and strips, 3D printer filaments, sleeves and sheaths for utensils, etc.

Backed by more than 40 years of experience, Day Tay is knowledgeable

about material properties to capably apply various plastics in production to

meet customers' demand, including PVC (polyvinyl chloride), PE (polyethylene), ABS (acrylonitrile butadiene styrene), EVA (ethylene vinyl acetate), PS (polystyrene), TPU (thermoplastic polyurethane) and PP (polypropylene).

Additionally, the company also provides all-around services, from plastic sourcing, packing to order budgeting and assessment,

material evaluation and mold design for added value. OEM (original equipment manufacturing) and ODM (original design manufacturing) are also part of the manufacturer's forte that helps customers to keep competitive in the increasingly challenging market.

Underpinned by strong commitment to customer satisfaction, precision and efficient manufacturing and high quality, Day Tay has established solid reputations as a reliable, competent production arm among overseas buyers.
