

# Chuan Jieen Enterprise Co., Ltd.

Automotive vacuum actuators, vacuum solenoid valves, refrigerant solenoid valves, heater valves, one-way valves, T-pipes, and rubber products

Founded in 1987, Chuan Jieen Enterprise Co., Ltd. is a leader in the automotive parts and components sector in Taiwan, having been a supplier to major OE markets and aftermarkets in the USA, Europe, Japan and China for 15 years and highly recognized for trustworthy quality.

Backed by outstanding production techniques and quality assurance systems, the company designs, makes and sells vacuum actuators; vacuum, refrigerant and EGR control solenoid valves; canister purge solenoids, heater valves, one-way valves, and rubber hoses,

prioritizing quality and customer satisfaction and doing its utmost to enhance quality control to better meet customer demand.

As conventional industries in Taiwan have declined following the transformation of industrial structure and many businesses having migrated to China, Chuan Jieen chooses to stay in Taiwan,

also investing in human resources and facilities and keep enhancing technology and R&D capability. It also aggressively expands markets globally, with the aim to stay competitive and sustainable.

Implementing strict quality control meeting international standards, Chuan Jieen was ISO 9001:2008 and ISO/TS16949:2009 certified respectively in 1999 and 2011, and has obtained D&B D-U-N-S® registered™ certificate. Boasting its own R&D team regularly developing innovative products to meet specific needs, the company welcomes OEM and ODM orders.
